Unit Four: Heroic Measures

Director's Message

It is hard to believe that we are about to begin our last unit for this school year in the Discovery Lab. What a great year it has been! Our final unit of the year is titled Heroic Measures.

The study of the human body can be lots of fun. In the Discovery Lab we plan to look at the areas of sports science and Guinness records. We are going to go beyond the body systems and focus on the unusual facts. I know that the students will enjoy this

unit as I have in the past.

We have truly been blessed this year in the lab with many great opportunities sponsored by our local 4H. If you know anyone that works for 4H please take the time to thank them.

Two of our Special Science Days this year would not have occurred without the help of Jan Walton.

I hope that each of you will find that the spring weather that is upon us will allow your children to be outside

more. Please encourage your child to spend that time outside. Take them on nature walks and allow them to stop and move a stone or two. You never know what all they might find.

There are over 1,800 pictures from lab on the school's website.

On the home page click on Zenfolio and check them out! You can download and easily save memories of your child.
