## The Bone Dance lyrics

Everybody knows the bones,  
Just had to find a way  
Everybody know what I'm talkin 'bout,  
That's how I'll get an A

My body's many parts  
And this is where it starts  
Phalenges I have ten,  
And Medditarsals then  
I got some tarsals too,  
I'll put them in my shoes  
The Fibula is next,  
According to my text  
Then comes the tibia,  
That ain't no fibia  
And now I'm up to my knee  
Yeah, Yeah, Yeah  
Thats the petela to me

We're doin' the bone dance  
We study the answers  
Again and again till I get it right  
We're doing the bone dance  
Ya dance and you'll learn it  
And we won't mess up this test  
We'll get it perfect

And now I take it home, with the  
Parital bone  
It might be crazy,  
But we learn that way  
Temporal and Frontal too  
And now we're finally through  
That makes two hundred and six  
I found a way that clicks  
*[chant]*

Bone thugs in the house

We're doin' the bone dance  
Ya study the answers,  
Again, and again till I get it right  
We're doin' the bone dance  
Ya dance and you'll learn it  
And we won't mess up this test  
We'll get it perfect  
WORD!

~Hannah Montana
